Car Description 

This Porsche 993 3.6 Turbo Coupe was delivered to the Porsche factory in Stuttgart and was first registered in Belgium. It has the classic color combination of black metallic on the outside Z8Z8 and black leather with flamenco carpet on the inside. The 993 was converted to GT2 without widening, the all-wheel drive was swapped for a GT2 transmission, the chassis was converted to a Bilstein with expansion tank and the brake system was converted to GT2 Evo with a 380mm diameter. The engine's performance was increased by RS tuning to 485 hp with a V-max of 314km/h, the whole thing was rounded off with a Turbo S Aero kit.

Major maintenance, a TÜV demonstration and a current appraisal are possible upon request.
